Percentage -66.7%

INTERNSHIP EXPERIENCE

Vinsup info
UIUX Designer

Dec 2023 – Mar 2024

- Implemented User interface User experience concepts to create scalable and efficient mobile and website design using Figma tool.
- Find out the user pain points and resolve the responsible design for users.
- Applied problem-solving skills to address challenges and enhance system performance.

Let's Grow More
Frontend developer

Jul 2022 – Jul 2022

- Gained hands-on web development skills through practical projects.
- I had a handsome experience by built a functional calculator website with user interaction and created a registration form that captures user data and displays it for confirmation on the same page by using techstack of HTML,CSS,Javascript.

PROJECTS

WANDER WISE
Tools: Figma

Mar - 2024

- Managed a digital library featuring over 1,000 timeless Tamil classics, achieving a 95% user satisfaction rate for accessibility and content quality.
- Developed a robust search and filter feature with 84% accuracy, enabling users to find books and events based on 30+ genres, 150+ authors and 20+ event types.
- Enhanced admin panel capabilities to efficiently manage book collections, user accounts, and event details, resulting in a 92% success rate for adding new books and a 87% accuracy rate for updating existing entries.

.

PERSONAL PORFOLIO
Tools: HTML,CSS,Boostrap

- I've built a responsive personal portfolio website using HTML, CSS, and Bootstrap. It highlights my skills, showcases my projects, and includes an easy way to get in touch.
- By using Bootstrap, I was able to create a clean, mobile-friendly layout with components like a navigation bar, cards, and a responsive grid.
- I also added custom CSS to give the site a unique and professional look. This portfolio is a reflection of my front-end development skills and my passion for creating well-designed, user-friendly websites.
